TYPE	Polyuréthane
DESCRIPTION	Primaire noir pour surface peinte
NOM/NOUVEAU NOM	
BRANDING	TEROSON PU 8521
CONDITIONNEMENT	11 100 ml
COMMENTAIRE	
APPROXIMATION	

Description

TEROSON® PU 8521 is a black, low-viscosity, polyurethane primer liquid. The product is notable for its excellent covering properties and good UV-stability. Free from chlorinated hydrocarbons and aromatic solvents, the product is used as a promoter for glass bonding applications with polyurethane-based adhesives/sealants. Can also improve adhesion on plastic, painted, and metallic surfaces.

Avantages

Improves adhesion when bonding glass with polyurethane-based adhesives
Excellent covering properties
Good UV stability
Free from chlorinated hydrocarbons and aromatic solvents
Can also improve bonding on plastic, painted, and metallic surfaces

Caractéristiques

Polyurethane black primer for improving adhesion in glass bonding applications. Excellent covering properties and good UV stability.

CARACTÉRISTIQUES PRODUIT

Marque	TEROSON
N° Ean13	3616060818089
Type	MASTICS ET COLLES
Poids	144 g
Conditionnement	1
Utilisation	Polyuréthane
